

## BIO PROTECTION SOLUTIONS

# Asphalt Repair Material

**ACTIVATE® is an exciting new product that allows you to reuse reclaimed asphalt pavement, or RAP for potholes, edge ruts, and shoulders**

- Converts RAP to “new” asphalt paving material: the most cost effective use for RAP.
- No heating! (Energy saving!)
- No additional oil, cutback, or polymers needed for most RAP, including asphalt cement.
- ACTIVATE® reverses the oxidation process (which causes pavement to fail) while strengthening the mix by introducing new SBS polymers.
- Easy to use.
- Easy to mix.
- Outperforms cold mixes and most hot mixes.
- Won't ravel.
